POULTRY MULTIVALENT INACTIVATED VIRAL VACCINES

Disease	Vaccine Name	Vaccine Description	Presentations 1 bottle of / doses
Egg Drop Syndrome + Newcastle Disease	E.D.S. + N.D.V.	Inactivated egg drop syndrome virus, 127 strain + inactivated Newcastle disease virus, V.H. cloned strain in oil emulsion	1,000
Egg Drop Syndrome + Newcastle Disease + Infectious Bronchitis	E.D.S. + N.D.V. + I.B.	Inactivated egg drop syndrome virus, 127 strain + inactivated Newcastle disease virus, V.H. cloned strain + inactivated infectious bronchitis virus, M-41 strain in oil emulsion	1,000
Infectious Bronchitis + Newcastle Disease	Bronchin	Inactivated infectious bronchitis virus, M-41 strain + inactivated Newcastle disease virus, V.H. cloned strain in oil emulsion	1,000
Infectious Bursal Disease + Newcastle Disease	Gumbin® VP2	Infectious bursal disease sub-unit VP2 protein + inactivated Newcastle disease virus, V.H. cloned strain in oil emulsion	1,000
Newcastle Disease + Infectious Bursal Disease + Infectious Bronchitis	ND + IB + VP2	Inactivated Newcastle disease virus, V.H. cloned strain + infectious bursal disease sub-unit VP2 protein + inactivated infectious bronchitis virus, M-41 strain in oil emulsion	1,000
Newcastle Disease + Infectious Bursal Disease + Infectious Bronchitis + Reo Viral Arthritis	Quadractin® VP2	Inactivated Newcastle disease virus, V.H. cloned strain + infectious bursal disease sub-unit VP2 protein + inactivated infectious bronchitis virus, M-41 strain + inactivated reovirus, S1133 strain in oil emulsion	1,000

POULTRY INACTIVATED BACTERIAL VACCINES

Disease	Vaccine Name	Vaccine Description	Presentations 1 bottle of / doses
Fowl Cholera	Cholerin® Triple	Inactivated <i>Pasteurella multocida</i> serotypes 1, 3 and 4 in oil emulsion	1,000
Infectious Coryza	Coryza	Inactivated infectious coryza, <i>Avibacterium paragallinarum</i> , serotypes A and C2 in oil emulsion	1,000
Infectious Coryza	IC Quadro	Inactivated infectious coryza, high concentration of <i>Avibacterium paragallinarum</i> , serotypes A, B, C2 and C3 in oil emulsion	2,000
Ornithobacteriosis	Ornitin Triple	Inactivated <i>Ornithobacterium rhinotracheale</i> bacteria strains A, B and C in oil emulsion	1,000
Salmonellosis	SalmAbic®	Inactivated Salmonella Enteritidis PT B3 and C8 (two phagotypes) and Salmonella Typhimurium PT2 (4+) in oil emulsion	1,000
Salmonellosis	SalmAbic® Plus	Inactivated Salmonella Enteritidis PT B3 and C8 (two phagotypes), Salmonella Typhimurium phagotype PT2 (4+) and Salmonella Infantis #122798 in oil emulsion	1,000
Salmonellosis	Salmin Plus	Inactivated Salmonella Enteritidis PT B3 and C8 (two phagotypes), Salmonella Typhimurium phagotype PT2 (4+) and Salmonella Infantis #122798 in oil emulsion for intramuscular injection	2,000

POULTRY LIVE VIRAL VACCINES IN TABLETS

Disease	Vaccine Name	Vaccine Description	Presentations 10 tablets of / doses
Infectious Bronchitis	TAbic® H-120	Lyophilized, effervescent tablet, Massachusetts H-120 strain	1,000; 2,000; 5,000
Infectious Bronchitis	TAbic® IBVAR206	Lyophilized, effervescent tablet, Var 2-06 strain	1,000; 2,000; 5,000
Infectious Bronchitis	TAbic® IB Var	Lyophilized, effervescent tablet, 233 Var 1 (793-B) strain	1,000; 2,000; 5,000
Infectious Bursal Disease	TAbic® M.B.	Lyophilized, effervescent tablet, M.B. strain	1,000; 2,000; 5,000
Newcastle Disease	TAbic® V.H.	Lyophilized, effervescent tablet, lentogenic V.H. cloned strain	1,000; 2,000; 5,000

POULTRY LIVE VIRAL VACCINES IN VIALS

Disease	Vaccine Name	Vaccine Description	Presentations 10 vials of / doses
Fowl Pox	Fowl Pox	Lyophilized mild Komorov strain	1,000; 2,000
Infectious Bronchitis	H-120	Lyophilized Massachusetts H-120 strain	1,000; 2,000; 5,000
Infectious Bursal Disease	M.B.®	Lyophilized M.B. strain	1,000; 2,000; 2,500; 5,000
Infectious Bursal Disease	MB-1™	Lyophilized M.B. strain, adapted for <i>in-ovo</i> or Subcutaneous injection at the hatchery	1,000; 2,000; 2,500; 4,000; 5,000
Infectious Laryngotracheitis	ILT	Lyophilized Samberg strain	1,000
Newcastle Disease	V.H.™	Lyophilized lentogenic V.H. cloned strain	1,000; 2,000; 5,000
Newcastle Disease + Infectious Bronchitis	V.H.+H-120	Lyophilized lentogenic V.H. cloned strain + Massachusetts H-120 strain	1,000; 2,000; 5,000

POULTRY MONOVALENT INACTIVATED VIRAL VACCINES

Disease	Vaccine Name	Vaccine Description	Presentations 1 bottle of / doses
Egg Drop Syndrome	E.D.S.	Inactivated 127 strain in oil emulsion	1,000
Newcastle Disease	Nectiv® Forte	Inactivated, highly concentrated, lentogenic V.H. cloned strain in oil emulsion	1,000

TAbic® family – TAbic® V.H., TAbic® IBVAR206, TAbic® IB Var, TAbic® H-120 and TAbic® M.B.
